

Appl. No. 10/470,997

Responsive Amendment dated: November 15, 2006

RECEIVED

NOV 17 2006

REMARKS

OFFICE OF PETITIONS

Applicants have amended the specification and claims as required in the Official Action to provide the requested sequence identification numbers.

Also submitted herewith is a computer readable disk containing the requested corrections. The information on the disk and the accompanying paper copy of the sequence listing are identical and no new matter has been added to the application. In addition, the revised sequence listing was forwarded to the USPTO by e-mail for checking and the undersigned attorney was advised by the USPTO that the sequence listing appeared to be compliant subject to further review.

In view of the above comments and further amendments to the claims, favorable reconsideration and allowance of all of the claims now present in the application are most respectfully requested.

Respectfully submitted,

BACON & THOMAS, PLLC
